

What if your **NEW JOB** required a 15 – 30 – 45 minute commute?

And you don't have a car?

Or the money to spend on parking?

Consider public transit, carpooling, vanpooling, biking and walking. They are generally less expensive and more convenient ways to get to work. You save money on parking, car maintenance and gas! You might even be able to finish reading that book you have been working on since last summer.

Why try it?

- Lower travel costs
- Reduce stress caused by driving
- Alternative use of travel time
- Free up car for family use
- Increase social networking

CommuteInfo is a **FREE** service
